OVERVIEW OF THE PROGRAM

This 'Train the Trainer' Training program is designed to help and benefit participants to plan, organize and deliver effective training sessions and to know how to assess the success of the training. During this program participants learn how to apply different training methods for engaging participants, how to handle difficult participants, how to provide training materials in a structured, clearly written manner, how to deliver an interactive presentation and how to apply the knowledge based on educational research to achieve prescribed training goals.

OBJECTIVES

The Objectives of this Program is to train & develop the participants as Trainer & Training Administrator by way of

- Understanding the needs of training
- Identifying the characteristics and the roles of an effective trainer
- Understanding the difference between training and presentations
- Understanding the importance and types of learner's engagement
- Application of different training methods
- Measuring Training Impact
- Developing the skills of adult class management
- Developing strategies for handling challenging participants and environments

LEARNING OUTCOME OF TRAIN THE TRAINER PROGRAM

After completing the Train the Trainer training course, participants will be able to:

- Promote learner participation and involvement by using effective questioning techniques in a training session
- Evaluate personal training strengths and areas to work on
- Define the factors that promote learning
- Understand the difference between training and presenting information
- Use recognized success measures to assess effective learning
- Design a training course targeted for adult learners
- Manage the learner and the classroom environment
- Improve communication and presentation skills
- Apply adult learning theories—Prepare an effective and clear course structure
- Deliver the training by using training activities for different learning needs
- Engage with different types of learners—Present material in a clear and engaging manner
- Developing specific and appropriate on-the-job and off-the-job training
- Create clearly written instructions and assessment criteria to assess the learning
- Address challenging participants, questions, and behaviour
- Receive and provide effective feedback
- Create evaluation forms and develop techniques to ensure application after the course completion.
